

Features & Benefits:

- IP68 rating: ideal for use in dry or damp locations
- Low input voltage and power consumption
- Weather resistant design
- Wide viewing angle - 160°
- Dimmable
- 5-year warranty

Population Guide:

Channel Depth:	3-6" [7.5-15 cm]
Stroke Width:	4" [10 cm]
Modules per Foot:	2
Modules per Meter:	6

Technical & Optical Data:

Input Voltage:	12V DC			
Working Current:	60 mA			
LED Color:	Red	Green	Blue	Amber
Wavelength (nm):	625	515	460	590
Viewing Angle:	160°			
LED per Unit:	3			
Wattage per Unit :	0.72 W			
Operating Temp.:	-40 to 185°F [-40 to 85°C]			

Notes:

1. L70 Lifetime: 50,000 Hours.
2. To avoid voltage drop, the following guideline of installation is recommended:
Max. 50 modules per run @ wire gauge: 20AWG.

Dimensions:
