

Features & Benefits:

- Alternative to neon – energy efficient, flexible, durable, non-breakable and cool to touch
- Special oval shaped jacket generates a bright neon-like glow
- Seamless and uniform lighting performance
- Can be cut to desired lengths with cutting marks for accuracy
- Minimum bending radius: 4" (10cm)
- 3-year warranty

Dimensions:

Cross Section View

Water Resistant

UV Protected

Technical & Optical Data:

Input Voltage	24V DC	
LED Color	Blue/Green/Red	White Warm White
Wattage per Foot (Meter)	3W (9W)	3W (9W)
Color Temperature	-	6500K/3000K
Lumen per Foot (Meter)	-	140Lm (420Lm)
Cutting Unit	2" (5cm)	
Operating Temperature	-4 – 115°F (-20 – 45°C)	

Accessories:

- Mounting Clip
- Power Cord
- End Cap

Note:

- Max run length: 32.8' (10m)
- Applications: Border Lighting, Architectural Outlines, Signage, Decorative Lighting
